

Town of Southborough Guide to Recycling and Trash Disposal

Massachusetts state regulation 310 CMR 19.017 prohibits the disposal, or transfer for disposal, of the following: glass containers, metal containers, narrow-neck plastic containers, recyclable paper, yard waste, leaves, lead acid batteries, white goods, tires, and cathode ray tubes (CRTs). These items are to be put in the appropriate recycling areas, NOT in the compactor. For your convenience, this sheet tells you exactly how to prepare your recyclables and what not to include, so please read it carefully and refer to it often. Residents with private pick-up may bring their recyclables to the Transfer Station or have them picked up by their hauler. Any questions, call the Town House at 485-0710. The Transfer Station, at 147 Cordaville Road (Route 85), is open Wednesday - Saturday, 8 am - 6 pm. Transfer Station stickers are required and are sold at the Town House.

MATERIALS BY BIN	WHAT TO RECYCLE	HOW TO PREPARE	DO NOT INCLUDE
