

SWINE FLU HOT LINE

The State Department of Public Health has set up a Swine Flu information line. Just **dial 211** from your phone to speak with a Department of Public Health representative who will answer any questions you might have.

Should you believe that you have symptoms of influenza; fever, cough, and sore throat, body aches, headache, chills and fatigue, contact your Primary Care Physician.

Fact sheets and 72 Hour Kit Check Lists are available at the Senior Center, Town Library, and Board of Health office or you can access the CDC site for up to date information at www.cdc.gov/.
