Street and House Number _____

System Size based on _____ GAL/ _____ and/or Total No. of Bedrooms _____

Assessor Map/Parcel # _____ Lot Size _____/Acres or Sq.Ft. (circle one)

Design Engineer _____ Phone _____

Design Engineer Address _____

- A permit is required prior to installation of a Subsurface Sewage Disposal System. A Shared System project, regardless of size requires a pre-construction meeting to be scheduled prior to installation.
- The installation must be performed by an Installer so licensed by the Town of Southborough.
- When updating a Sewage Disposal Permit, the Designer must certify that the conditions are unchanged and that the plan still conforms to applicable sanitary codes.

I understand that I may not proceed with construction of the Sewage Disposal System until this application is approved; that the installation must be inspected by both the certifying engineer and the agent of the Board of Health as required by the permit and that the Installer is responsible for scheduling these inspections with a minimum of 48 hours' notice.

You Must Submit a check or money order payable to the Town of Southborough in the amount stated above plus any additional fees required before this application will be considered or reviewed.
